

# When we all respond, we contribute to a better future for Puerto Rico.

Every 10 years, the federal government counts everyone who lives in the United States. The 2020 Census will inform the distribution of more than \$675 billion annually in federal funds to communities across the country, including communities in Puerto Rico.

To ensure an accurate count, remember to:

Count every person living in your home, regardless of place of origin, including newborns and children.

Respond using the address where you were living on April 1, 2020.

## Responding to the 2020 Census is:

- **Safe.** Your personal information is confidential and protected by federal law. The census will not ask for your social security number, bank account, or credit card information.
- **Easy.** Invest a few minutes to complete your form online, by phone, or by mail. If you have not yet received your census materials, Census Bureau staff with identification will visit your home to deliver your questionnaire. Census takers will visit households that do not respond and can assist if you need help completing your form.
- **Important.** The 2020 Census will help determine funding for Puerto Rico for the next 10 years for things like health care, infrastructure, and education.
